Electronic Cash Register

## BIG FUTURE FOR SMALL BUSINESS

### Outstanding Features

- **Fast, quiet 2-station drop-in thermal printer allows the installation of 58-mm-wide paper rolls**
- **Bright, 2-line LCD with 2-colour backlight is easy on the eyes**
- **99 pre-programmed departments**
- **1,800 price look-ups (PLUs) for quick and accurate entry**
- **USB interface for easy connectivity**
- **Locking cash drawer with 5 bill and 8 coin compartments**

## An ECR That Takes Care of Business While You Take Care of Customers

The XE-A303 keeps track of sales transactions quickly and effectively. An abundance of PLUs (price look-ups) and department keys accommodate a variety of merchandise items. This means a faster, more accurate check-out process and the ability to manage a wider variety of good and services more efficiently. And with features like fast, attractive receipt print-outs and an easy-to-view LCD operator display, the XE-A303 makes managing your business a pleasure and keeps you—and your customers—smiling.

### Quick and Quiet Thermal Printing

The XE-A303 uses a fast, quiet 2-station drop-in thermal printer that prints out at a speedy rate of approximately 17.3 lines a second. It allows the use of 58-mm-wide paper rolls and records transactions onto receipt and journal for easy sales management. And the ability to print business logos and other graphics means any store can have attractive, professional-looking receipts.

### Clear Display for User-Friendly Operation

Everything about the display makes it easy to view and understand. Each of its two lines displays up to 16 alphanumeric characters, so clerks can easily see the names of purchased items and other information. And it's bright enough to read in low-light environment. Further clarity is offered by the 2-colour backlight, which changes the display to red for void sales.

### Abundant Departments and PLUs

Standard equipped with 1,800 PLUs (price look-ups), the XE-A303 makes entering pricing information a snap. By simply entering the code for the items being purchased, you can total up sales with increased accuracy and speed. A total of 99 departments are also available, allowing you to easily track and analyse transactions by product type. These key entry functions make it easy to manage a large number of products, allowing your business to maintain a product lineup that meets customer demand.

### Convenient PC Connectivity

The XE-A303 comes standard with a USB port for easy PC data transfer. You can also create department and PLU data, logos, messages and other programming data on a PC and download it to the XE-A303.

Note: Special programming software is required; availability depends on region.

### High-Capacity Metal Cash Drawer

The XE-A303's space-efficient cash drawer takes up minimal counter space yet generously provides five bill compartments and eight coin compartments. When not in use, the ruggedly built drawer can be locked shut, keeping your money safe.

### Other Key Features

- Logo printing (30 alphanumeric characters x 6 lines)
- Up to 25 individual clerk totals
- Tax (VAT) shift function (4 rates)
- Prints out receipts in English, German, French or Spanish
- Auto paper feed and convenient paper cutter
- Easy operator display-based programming guidance
